Please join the University of Utah's Friends of the J Willard Marriott Library for an eventful evening: a display of rare pop-up books, dinner, silent auction, and a presentation by Ann M. Staples, pop-up book collector and founder and director of the Moveable Book Society, a world-wide organization that has been promoting pop-up books since 1993.

Ann will discuss the history of movable books and show examples of these hand-crafted creations. See how complex paper engineering educates and entertains readers. Ann is considered the preeminent authority on movable books and an avid pop-up book collector, researcher and author. Her collection of pop-up books currently numbers about 4,500 individual titles. She is the author of the following books: *Pop-up and Movable Books: A Bibliography* (Scarecrow Press, 1993) and *Pop-up and Movable Books: A Bibliography, Supplement 1, 1991-1997* (Scarecrow Press, 2000). A selection of Special Collections rare book holdings of pop-up books will be on display.
